EDUCATION

2009/12 . Business Management Process Strategist. Fundação Getúlio Vargas de São Paulo.

2019 - Fundamentals of digital marketing - Google certified.

2019 - Full Stack Web Development Course - Udemy Certified

2019 - Advanced Javascript Concepts - Udemy Certified

2019 - React Development - Udemy Certified

PROJECTS

Ecommerce: <https://crwn-09-live.herokuapp.com>

Full advanced ecom web app turned into PWA using React Redux, all typed in javascript, with RESTful API Server and Firebase to store data and keep away from the frontend all relevant data such as payment API keys and user's password. Fast, stable and reliable system ready to be putted in place for real life conditions.

Face Recognition: github.com/cvspinelli09/Face_Detect_App

More advanced web app, using a Rest API that allows the software to identify a human face on ever image by displaying a square box over the face. It does not recognize the person, but it recognizes that there is a human face on the image. (run npm install, npm start)

Star War Cards: cvspinelli09.github.io/star_wars_cards/

Simple and fun web app to demonstrate integration between Search Field input and the output results at the DOM, according to what is typed.
